Celebrating our 20th anniversary

Being able to compete in an ever changing market while remaining adaptable in a technologically fast growing field is something we have constantly focused on at GRIVEN, during our first 20 years. The experience we have gained means we now have the tools, the knowledge and a solid know-how, which will surely help us face the next challenging phase of company development. We started out...

Denmark - The 15th UN Climate Change Conference

Denmark had the honour of hosting the 15th United Nations Climate Change Conference (COP15) which took place at Copenhagen Bella Center from the 7th to the 18th of December, 2009. Hosting about 15.000 participants, this has been the largest international political conference ever held in Denmark with attendants from 192 countries representing governments, business communities and civil society....

Kuwait - GRIVEN at the OCA inauguration ceremony

Eighty KOLORADO MK3 2500 units have been used for various live performances at the prestigious Grand Opening ceremonies of the Olympic Council of Asia Headquarters. These mighty colour changing fixtures were placed on the floor of each of the two different levels and on the top of the two towers of the OCA Headquarters in order to deliver a dynamic lighting show and create the ideal live backdrop for...
