

Upcoming events

Interesting novelties, technical innovation, new lighting solutions, brand-new products. This is what will be unveiled by GRIVEN at two upcoming events, **Prolight+Sound and Light+Building**, which are about to be held in Frankfurt am Main respectively from 24th to 27th March and from 11th to 16th April, 2010.

Relying on its extensive experience and know-how, the GRIVEN team is warming up and will be more than glad and ready to welcome to our booths and present you all latest news. We are proud of being even this year an essential part of it, or we'd better say of them, since we will exhibit at both of these worldwide

renowned leading exhibitions. The shows will also be, as usual, the occasion for prices refreshment, so, we are delighted to draw your attention to good news which will hopefully support your March sales, since, if you place your purchase orders by the time that these two unfailing fairs arrive, you will still enjoy GRIVEN current prices. We get the chance of this newsletter to advise you that Powershine and Graph-*i*-Spot units have already faced a price updating, so, all those of you, who are hopefully working on projects and deals involving these two GRIVEN lighting fittings, are kindly asked to contact our Sales Dept. for more details.

New product launches at ProLight+ Sound 2010

Interesting product novelties will be unveiled by GRIVEN at the upcoming **ProLight+ Sound**, which will be held in Frankfurt am Main from 24th to 27th March 2010. The technical innovation of high power LED lighting solutions has undoubtedly become a must for GRIVEN's new product releases, no matter which lighting field they are developed for.

Perfectly fulfilling the latest market requirements either in entertainment or architectural lighting applications, the GRIVEN team has recently engineered a brand new LED projector specifically designed for underwater applications. With its high power LEDs and full dry

weather protection rating, this top lighting fixture will surely meet the needs of the most demanding submerged installations. Presenting the uncountable advantages of the groundbreaking LED technology, a second newly born GRIVEN LED gobo projector will allow for manifold opportunities in image projection in indoor as well as outdoor locations. Enriching the renowned range of GRIVEN's PARADE LED modular bars, an innovative, cost-saving solution will soon be available in order to spread the well-known, high-level performances of this series to a wider market segment.

Don't you miss the opportunity of discovering this novelties at our booth **B75 in hall 11.0!**

New Interior lighting design Collection in a first-ever preview at Light+ Building 2010

collection!

After 20 years of successful... world lighting challenges, GRIVEN is about to win its umpteenth victory. An innovative line of energy-efficient LED lighting fittings has recently been designed by the Italian lighting company for the most demanding needs within the field of interior lighting design.

At **Light+Building 2010**, which will be held in Frankfurt am Main from 11th to 16th April 2010, a newly conceived GRIVEN stand will display a selection of energy-efficient LED luminaires for optimal lighting performances in indoor ambiances.

Come and visit us to booth **H30 in Hall 4.1**, to discover this astonishing

Ukraine - The Stolichniy Business Centre coloured up by GRIVEN

Founded in 1869 by the English businessman John Hughes, who bought directly from the Russian Tsar the right to build the first metallurgical plant of the area, Donetsk represents now the most developed industrial city of the Ukrainian south eastern region of Donbass. Supported by the constant growth of new multi-function business centres, the rapidly expanding market of Donetsk has nowadays...
